

POST LANAP DIET INSTRUCTIONS

- The first three days following Laser Therapy, follow only a liquid-like diet to allow healing. Anything that could be put into a blender to drink is ideal. The purpose of this is to protect the clot that is acting as a “band-aid” between the gum and teeth. Do not drink through a straw, as this creates a vacuum in your mouth that can disturb the “band-aid.” Take daily vitamins.
- Next four days after treatment, foods with a “mushy” consistency such as those listed below are recommended. (see below)
- Starting seven to ten days after treatment, “mushy” – soft foods are allowable. Soft foods have the consistency of pasta, fish, chicken or steamed vegetables. You may then, gradually add back your regular diet choices.
- Please remember that even after ten days, healing is not complete. The first month following treatment you should continue to make smart food choices. Softer foods are better.

”Mushy” Diet Suggestions

- DAILY VITAMINS!
- Anything put through a food blender
- Cream of wheat, oatmeal, malt o meal
- Mashed potatoes or baked potatoes – ok with butter/sour cream
- Mashed banana, mashed avocado, applesauce or any mashed/blended fruit except berries with seeds
